

New Xwind Operations Center!

March 1, 2008

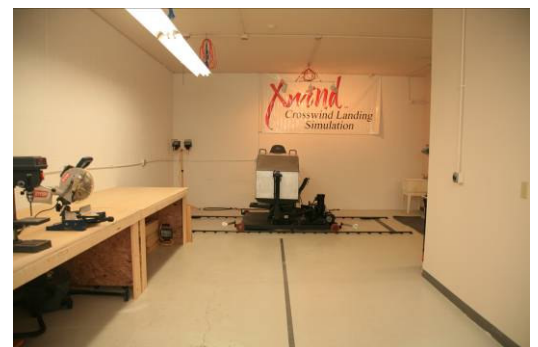

Xwind is proud to announce the grand opening of a new operations center in Indianapolis, Indiana as of March 1, 2008. The new center is located on the West side near 21st street in the Indy Court industrial complex.

Xwind, LLC
8259 Indy Court
Indianapolis, IN 46214

Activities at the new operations center will include:

1. Research and Development
2. Final product testing
3. Electrical control panel fabrication
4. Sub-assembly fabrication
5. Crosswind landing training using the Xwind 200 simulator.

The new facility allows Xwind to consolidate training and fabrication and expand production capability.

Training is being conducted by appointment seven days per week and Xwind provides free transportation from the airport for those who fly in for training.

Brad Whitsitt is an Electrical Engineer and Flight Instructor with over 4000 flight hours. Brad is also the president of Xwind, LLC, a company dedicated to crosswind landing skill excellence. For more information contact Brad at:
